INTRODUCTION

This directory is a listing of the education officials in the Office of Education, the principal State and Territorial school officers, the executive officers of the State and Territorial library extension agencies, and the principal education officers of the Bureau of Indian Affairs, Department of the Interior. It has two major purposes: (1) To present a listing of professional personnel in the agencies concerned; and (2) To show the internal organization of the Office of Education and the State departments of education. It is hoped that the information in the Directory will be helpful in identifying the individuals in each agency with whom directory users may wish to communicate.

CRITERIA FOR LISTING

Use was made of the following criteria in determining what officers of the State departments of education should be included or excluded:

For inclusion:

1. All regularly employed professional personnel of the State department of education who report directly or through a superior to the chief State school officer and whose duties are statewide in scope.

For exclusion:

1. All field or regional personnel (supervisors, consultants, counselors, etc.) of the State department of education who are under the immediate supervision of an officer of

the department other than the chief State school officer and whose duties encompass only a certain geographical portion of the State.

2. All personnel of State-operated schools, libraries, museums, radio stations, etc., which are administered through the State department of education, *except the heads of such State-operated programs* who provide a specialized statewide service to schools and school personnel or who are recognized as bureau or division heads in the department.

ARRANGEMENT OF DATA

In the listing of Principal State and Territorial School Officers, the data are arranged to reflect the organization of the departments of education through the indentation of official titles. The official titles of the chief school officer and all professional personnel under his immediate supervision form the basis for indentation. All professional personnel directly responsible to an official other than the chief school officer are listed under that official, and the relationship is shown by an appropriate indentation.

CLASSIFICATION OF PUBLIC-SCHOOL SUPERINTENDENTS INCLUDED IN THIS DIRECTORY

County and supervisory district or union superintendents.—The county constitutes an area for school administration in all of the States except Delaware, New York, and the six New England States.

There are two basic types of county school administrations, the county-intermediate system and the county-unit system.

The county-intermediate system is the traditional and still the most prevalent form of county school administration. It exists in areas where the local independent school district prevails as the basic administrative unit, primarily in the mid-west and the Plains States. Under this type of organization, the county school superintendent generally serves as an intermediary between the basic administrative units in the county and the State Department of Education. However, the specific functions of this type of district vary from State to State.

The county-unit school system, on the other hand, is a countywide, basic administrative unit. It is most prevalent in the Southern States.[1]

County-unit school districts are further subdivided into complete and partial county-units. A complete county-unit school system covers all of the public schools of the county. A partial county-unit school system comprises much of a county but does not administer one or more independent districts, generally the school system of a city or town, located within the county. An example of a partial county-unit school system is that of Jefferson County, Ky., which administers all

[1] The States in which the county-unit school system largely prevails and the number in each State as reported by the Bureau of the Census for 1956–57 are as follows: Alabama, 36; Florida, 67; Georgia, 123; Kentucky, 49; Louisiana, 60 (Parish); Maryland, 23; Nevada, 17; North Carolina, 48; South Carolina, 24; Tennessee, 56; Texas, 30; Utah, 22; Virginia, 87; and West Virginia, 55. In addition there are 45 county-unit systems distributed among 15 States other than those given above.

of the public schools within the county with the exception of the schools of the city of Louisville and the town of Anchorage which have their own independent school systems.

All school administration in the States of Florida, Nevada, and West Virginia is exclusively on a complete county-unit system basis. Each of the other States in which the county-unit school system prevails in appreciable number, has one or more city school districts administered independent of the county in which they are located.

In the State of Virginia, some "divisions," the official designation for all school districts in the State, include the territory of more than one county.

In Utah, although most of the school districts are organized and administered as complete county-unit systems, some counties are divided into 2 or 3 districts, each of which has its own school superintendent.

In the New England States, the town or city organization and the more recently organized School Administrative District in Maine constitute the basic unit for school administration. Those New England town school systems which are too small, individually, to employ a superintendent full time, form supervisory unions consisting of two or more towns. Similarly, in New York State, towns have been combined to form supervisory school districts, each of which employs a full-time superintendent.

In Delaware any administrative function not discharged by the local school district is performed by the State Department of Education.

Urban place and superintendent.—Selection of school systems included in this section of the Directory was made, with the exceptions noted below, in accordance with the 1950 Census listing of urban places. The list of urban places shown for each State was taken from the Bureau of the Census Volume I—Number of Inhabitants: April 1, 1950. Many of these places are not incorporated as urban centers; such unincorporated places are indicated in this Directory with an asterisk (*).

A number of New Jersey and Pennsylvania township school systems have been included in this Directory. This has been done because of their location either wholly or partly in the "urbanized" (suburban) areas of large cities. Only those township school districts have been included which contain, as part of their total population, 2,500 inhabitants or more within the urbanized area. The population figures shown for these townships in this Directory are for the urbanized area population only which is not in all cases the total population of the school district. Areas in this category have been designated with a double asterisk (**).

For the New England States separate listings are made of the town and of the city school systems. The names of urban centers with 2,500 population or more (as based on 1950 Census), the schools of which are administered by the town as part of its school system, are given in parentheses following the town name. Also, the name of the superintendent and the total population of each town are listed.

Superintendents administering city schools are indicated as follows:

For "independent" city and other urban school administrative districts, each of which has its own superintendent, the name of this official appears after the name of the city or urban place as listed in this Directory.

Some urban localities have separate districts for elementary and for secondary schools; others maintain elementary districts only, with a separate high school district encompassing a larger area such as the county. Where this is true, the districts are designated as "Elem." or "High" and the superintendent for each is listed.

In situations where the schools in urban places of 2,500 population and more (according to the 1950 Census) are administered as a part of county-unit school systems, the name of the county for each such place is shown.

In cases where urban schools in New England are administered by superintendents of supervisory or superintendency districts or unions, the number of the union, or the name of the district is given. Where schools in urban places of 2,500 population and more are part of a town system, the name of the urban place appears in parentheses after that of the town.

There are instances in other regions where schools in smaller urban places are part of nearby larger urban systems. Where this occurs, the name of the larger school district is shown in parentheses.

Superintendents of local systems in Alaska, Hawaii, and Puerto Rico.—Urban schools in Hawaii and Puerto Rico are administered by district superintendents. The superintendent for each such district is listed in this Directory. In Alaska, which does not have counties or comparable areas, superintendents are listed by city.

PAROCHIAL SCHOOL SUPERINTENDENTS

Superintendents of Catholic parochial schools with their addresses are listed according to archdiocese and diocese.

Superintendents of Lutheran parochial schools with their addresses are listed by supervisory district.

City, Town, and Superintendent

[Except for the public school systems maintained by 17 cities in Connecticut, the school district boundaries of which are, in general, coterminous with that of the town, all other public schools in the State are a part of the towns, or supervisory districts in which they are located. In previous editions of this Directory, unincorporated, and wholly or partly urbanized areas were listed separately. In this edition, towns have been considered more appropriate for listing (exclusive of the "independent" city school systems) with the places of 2,500 population and more (based on the 1950 Federal census) within each town, shown in parentheses. The total town population, as well as the population of the urban centers within the town, are given in parentheses.]

The cities and towns are presented separately in the following listings:

City, Town, and Superintendent

[Except for the public school systems maintained by 39 incorporated cities in Massachusetts all other public schools in the State are a part of the towns in which they are located. In previous editions of this Directory, unincorporated places were listed separately. In this edition, towns have been considered more appropriate for listing, with the incorporated places of 2,500 population and more, (as based on the 1950 federal census) within each town, shown in parentheses. The population figures given are those for the town total.]

[The Joint School plan used in the State of Pennsylvania represents a contractual relationship between two or more school districts. As legal entities, school districts can by contract enter into an arrangement called a "Jointure." This Jointure makes possible the pooling of resources by two or more districts to strengthen educational program offerings for increased numbers of pupils. A central unit for administration of all the district schools in a Jointure is created under this plan. Since it is not a legal entity, a Jointure may be terminated at the will of the contracting districts.]

RHODE ISLAND

Supervisory Union and Superintendent[7]

Foster and Glocester Towns—Alden C. Saunders, Foster Center.

[Except for the public school systems maintained by 9 incorporated cities, and 1 supervisory union, all other public schools in the State are a part of the towns in which they are located. In previous editions of this Directory, unincorporated places were listed separately. In this edition, towns have been considered more appropriate for listing, with the incorporated places of 2,500 population and more (as based on the 1950 Federal census) within each town shown in parentheses. The population figures given are those for the town total.]

INSTITUTIONS OF HIGHER EDUCATION—INTRODUCTION

CRITERIA FOR LISTING IN THIS DIRECTORY

Institutions reported to the Office of Education as being in operation during 1958–59, offering at least a 2-year program of college-level studies in residence, willing to submit regularly and promptly the information required for listing, and meeting the criteria stated below, are included in this directory.

The criteria for listing in the directory are as follows:

1. Institutions accredited or approved by a nationally recognized accrediting agency, a State department of education, a State university, or operating under public control, are eligible for inclusion.
2. Institutions not meeting requirements of criterion 1 are eligible for inclusion if their credits have been and are accepted as if coming from an accredited institution by not fewer than three fully accredited institutions.

CLASSIFICATION OF INSTITUTIONS

Institutions are classified by highest level of offering and by type of program.

The following categories have been established to designate institutions by highest level of training:

I. *2 but less than 4 years of work beyond the 12th grade*—includes junior colleges, technical institutes, and normal schools offering at least a 2-year program of college-level studies;

II. *Only the bachelor's and/or first professional degree*—includes those institutions offering courses of studies leading to the customary bachelor of arts or bachelor of science degree, and all those degrees which entitle the possessor to enter the profession indicated; e.g., doctor of medicine, bachelor of pharmacy, or bachelor of science in engineering;

III. *Master's and/or second professional degree*—includes those institutions offering the customary first graduate degree, and any degree earned in the same field after the first professional degree, or after a bachelor's degree in that field; e.g., the degree of electrical engineer, earned after the bachelor of engineering, or the degree of doctor of science of law earned after the bachelor of laws degree;

IV. *Doctor of philosophy and equivalent degrees;* and

V. *Other* (explained by footnote).

The designations of institutions by type of program are as follows:

a. Terminal-occupational (below bachelor's degree)—to represent a program not extending beyond the 14th or 15th grade, designed to prepare directly for an occupation, and not intended to prepare for advanced study;

b. Liberal arts and general—including those institutions offering a 4-year program leading to the bachelor's degree;

c. Liberal arts and general, and terminal-occupational—for institutions offering programs described by *a* and *b* above;

d. Primarily teacher preparatory;

e. Liberal arts and general, and teacher preparatory;

f. Liberal arts and general, teacher preparatory, and terminal-occupational;

g. Professional or technical—including those institutions offering a program of occupational preparation (excluding teacher preparatory);

h. Professional or technical, and teacher preparatory;

i. Professional or technical, and terminal-occupational;

j. Liberal arts and general with 1 or 2 professional schools; and

k. Liberal arts and general with 3 or more professional schools—including institutions organized as universities.

ARRANGEMENT OF DATA

An institution is listed in this directory under the State in which its post office is located. A branch institution is listed as a unit of the parent institution, with a cross reference to facilitate finding of the data. Arrangement of the data shown is uniform as follows:

For institutions organized as universities:

Name of institution, location (accreditation, control, student body, calendar system, code representing classification of institution by level of offering and type of program, enrollment).

Name of officers as follows:

President or chancellor.
Dean.
Chief business officer.
Registrar and admissions officer.
Librarian.
Chief personnel officer and dean of men and dean of women.
Dean or director of each professional school or college.[1]
Dean of graduate school.
Director of summer session.

For other institutions of higher education having an enrollment of more than 200:

All data as above, except those relating to professional schools.

For institutions with enrollments of 200 or fewer:

Chief executive officer.
Chief academic officer.
Chief business officer.
Registrar or equivalent officer

[1] Some universities maintain departments which are the equivalent of schools in other universities, but such departments are not listed unless they are separately organized with a dean or director in charge.

ABBREVIATIONS AND SYMBOLS

In parentheses immediately following the name and location of an institution, the abbreviations and symbols separated by semicolons indicate six facts:

THIS DIRECTORY contains information based upon replies to a questionnaire sent by the Office of Education to education associations and organization. The fact that an association or organization is listed in the Directory does not imply that the Office of Education either recommends or evaluates it.

The first item in a listing is the organization's name, followed by the address of headquarters, if any; the second, name and address of the head (president, chairman, director, etc.); the third, name and address of the secretary; the fourth, expiration date of president's term; the fifth, title(s) of the official periodic publication(s) and frequency of issue. If no address appears for the head or the secretary, it is the same as that for the organization.

The frequency of publication is shown by abbreviations: an. (annual); bien. (biennial); bm. (bimonthly); bw. (biweekly); ir. (irregular); m. (monthly); nos. (number issued each year); q. (quarterly); sa. (semiannual); sm. (semimonthly); trien. (triennial); w. (weekly).
